CAMST in numbers

784 mln € revenue
Several UNI EN ISO Certifications

International scope

70+ yrs experience
15.800+ employees

How we helped

Challenges

Gruppo Camst wanted to ensure integrity and quality of the food it processes and serves, to provide consumers with top quality and adequate shelf-life products. To do so, it needed to manage Food integrity information and monitor Food integrity and temperatures in 8 cold rooms located in its kitchens.

Solution

Wenda provided Gruppo Camst with access to the Wenda Information Management Hub. After the Quality manager established integrity thresholds which should not be exceeded, Gruppo Gruppo Camst was able to monitor the temperature pattern both via smartphone notifications displayed in a single dashboard and through a light signal.

Benefits

- Operational improvement
- Objective data availability to prove regulatory compliance
- Greater control of internal processes

Wenda, who we are

Wenda is an Italian startup supported by international investors, collaborating with primary Brands in the Food & Beverage sector, from producers, to retails, logistics and insurances.

Wenda is its people: a team of experienced and young innovators committed in contributing to the creation of a sustainable food chain.
